

Your Security **DISTRIBUTOR** *Since 1985!*

Sign up for Alpha Intercom Newsletter

Stay up to date on new products, sales, events and other special announcements.

Quality and after-sales service is our obsession!

Since 1985, Alpha Intercom has been a reputable distributor of security products, providing reliable solutions for over three decades. Our extensive range includes intercoms, access control systems, door locks, smart cloud solutions and surveillance cameras, catering to diverse security needs.

From its origins as a family venture, Alpha Intercom has evolved into a prominent entity within the Canadian security sector. Our growth is attributed to our unwavering commitment to excellence and dedication to customer satisfaction.

Strategically located in Toronto and Montreal, our offices are strategically positioned to serve businesses and individuals across Canada. While deeply rooted in local communities, our influence extends nationwide, with a commitment to serving clients from coast to coast.

At Alpha Intercom, we prioritize exceptional service and expertise. Our dedicated team is driven to provide unparalleled support and guidance, ensuring that each interaction exceeds our customers' expectations.

Recognizing the critical importance of security in today's landscape, we remain at the forefront of industry advancements and trends. Leveraging our extensive knowledge and expertise, we deliver innovative solutions tailored to meet the unique requirements of every client.

Whether you're a small business owner, a homeowner, or a corporate entity, Alpha Intercom is your reliable partner for superior security products and exceptional service. We express our sincere appreciation for choosing Alpha Intercom as your esteemed security ally.

Embark on the journey of discovering the Alpha Intercom difference today.

FERMAX

SPANISH BRAND

Founded in 1949 in Valencia, our goal is to unite people and their homes with the world and our mission is to be the leader doorman systems connected video.

cityclassic

CityLine Classic is the classic outdoor panel line for buildings.

The panels are manufactured in anodized aluminium, highly resistant to rough weather and climate changes.

cityline

A worldwide urban symbol thanks to its design, elegance and robustness.

Its monoblock concept and customized manufacture enable a wide range of solutions for audio and video door entry panels.

MARINE

Vandal-proof. Made in stainless steel.

State of the art technology and resistance to even the most corrosive, humid and dangerous atmospheres.

cityclassic

Cityline Classic is the range of audio door entry panels for small buildings. It stands out for its design, versatility and curved-convex profile. There are 9 continuous profile series, all of them the same width but with different heights and button capacities.

- **The PANELS** are made of highly weather-resistant anodised aluminium. A cellular rubber waterproof seal, ensures perfect fitting of the panel in the wall, preventing water from getting in.
- The metal **PUSHBUTTONS** have a rounded shape, to keep with the curved profile of the panel. They can be double or single. The amplifier emits a confirmation sound when the button is pressed.
- The **AMPLIFIER** is manufactured in SMD (Surface Mounting Device) and subject to a process of tropicalisation to withstand the most adverse weather conditions. It has: front button for lighting of cardholders, volume controls in both directions for optimum sound level free from feedback, call confirmation sound, voice synthesiser in different languages, etc.

golmar

Just 2-wire

Because Golmar technology does not need more.
Dare with any type of project thanks to the guarantee offered by a leading company.

G2CALL+

to always
be connected

A powerful app that allows you to answer your video intercom calls from anywhere.

Control all your devices with G2+ and IP G+ technologies in a simple way and under the same app: the main entrance door, the garage, the beach house, ... And share them with whoever you want by just sending a QR code .

Each device has shortcut icons, making it possible to open any of the doors associated with the devices as if it were a remote control.

The multi screen function makes it possible to display up to 16 devices simultaneously, whether they are video door panels, CCTV IP cameras or Golmar Wi-Fi residential cameras.

 Induction loop amplifier for hearing aid devices

 Integrated Wi-Fi module to divert calls to mobile phone, using the G2Call+ app

ART 7AW

The ART 7 AW monitor is based on the Android™ operating system, which allows the use of home automation management applications or the viewing of IP CCTV cameras registered in an NVR recorder. These and many other functions make this monitor the best choice for the most exclusive apartments.

APARTMENTS BUILDING

Whether you opt for pushbutton panels or coded call panels, you can have up to 16 entrances to the building and a total of 128 apartments with 4 indoor units in each one of them. In buildings with up to 32 apartments, you can use 4.3" Wi-Fi monitors without having to power them independently.

SÉRIE ATLAS

ACCESS CONTROL CENTER WITH BUILT-IN SOFTWARE

ATLAS PROX PANELS

One-door Atlas Prox Series Access Control panel is designed & engineered in the U.S. Atlas panels are fast & simple to install because they require no software. Instead, the panels have an embedded full-featured access control web application. Atlas panels also use minimal wiring because they support both Power over Ethernet (PoE) and Wi-Fi communication.

For optimizing your cost of installation, the Prox Atlas Control Panels are available in 3 options:

- 1) ATLAS-100 (control 1 door)
- 2) ATLAS-200 (control 2 doors)
- 3) ATLAS-400 (control 4 doors)

A VARIETY OF PROXIMITY, BIOMETRIC AND BLUETOOTH READERS ARE SUPPORTED. INCLUDING WIEGAND & OSDP READERS.

USE YOUR PHONE AS YOUR CREDENTIAL WITH THE ZKEY APP USING BLUETOOTH CREDENTIALS & QR CODES.

ATLAS CONTROL PANELS ARE COMPATIBLE WITH MOST CARDS & FOBS.

ACCESS & MANAGE YOUR CUSTOMERS FROM ANY DEVICE, ANYWHERE WITH THE ATLASCLOUD.

Dialer

250 users - up to 4 doors

REF: GD3038

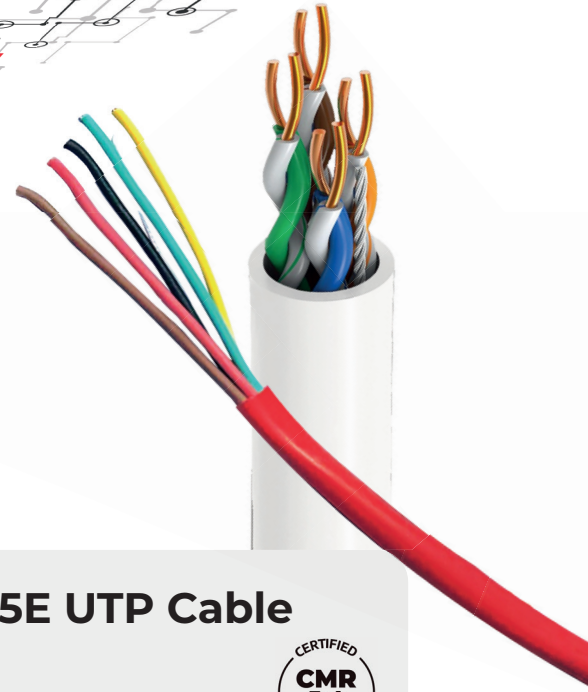

The model GD3038 is compatible with 1 to 4 doors maximum. It's designed for use as primary access control for apartments, condominiums, or offices with up to 250 users.

The panel can be used in a lobby or outside. The system utilizes hands-free, full-duplex telephone communications between visitors for granting access.

Rugged stainless steel faced panel, the GD3038 features a lighted 12-key telephone-style keypad. The backlit five-line directory LCD display scrolls a welcome message and shows the directory Names and Directory units numbers.
